Network makes presentation at Ontario Conference. On June 4-5, 2014, the Ontario Association of Local Public Health Agencies (aLPHa) and the Association of Ontario Health Centres (AOHC) jointly sponsored a conference with the theme of "Prevent More to Treat Less - Public Health and Primary Health Care Together". Margaret Parlor of the National ME/FM Action Network had the opportunity to give a presentation at one of the conference workshops. The presentation introduced conference participants to issues around serving the ME, FM and MCS communities.

A copy of the presentation is [here](#) :

The presentation was based largely on the quantitative study prepared by the Erika Halapy as part of the Ontario Business Case Proposal Project - see <http://meao.ca/events-dec5a.html> . Erika was able to join Margaret at the conference. They had the opportunity to meet many people who are actively dealing with health issues in Ontario.
